

Boiler And Pressure Vessel Plant Extension

This Policy is extended to include damage as specified below to boilers and pressure vessel plant.

Damage caused by their own explosion or collapse.

Explosion shall mean the sudden and violent rending of the permanent structure of the plant by force of internal steam or fluid pressure or bodily displacement of any part of such structure together with forcible ejection of its contents, except in the case of a steam test at a pressure not exceeding the maximum pressure permitted by the inspecting authority the term explosion shall not mean failure under the test.

Collapse shall mean the sudden and dangerous distortion of any part of the permanent structure of plant by bending or crushing caused by force of steam or fluid pressure whether attended by rupture or not. Except in the case of a steam test at a pressure not exceeding the maximum pressure permitted by the inspecting authority the term collapse shall not mean failure under the test.
