

<p style="text-align: center;">ENDORSEMENT 352 COVER OF REACTOR PRESSURE VESSEL WITH INTERNALS</p>
--

It is agreed and understood that otherwise subject to the terms, exclusions, provisions and conditions contained in the Policy or endorsed thereon and subject to the Insured having paid the agreed extra premium, this insurance shall be extended to cover the reactor pressure vessel and its internals *). No distinction shall be made between cost of conventional repair and cost due to decontamination. The total indemnity payable under this Endorsement shall not exceed the amount of for any one accident.

The external limits of the reactor pressure vessel are defined as shown in the attached drawing No.

*) Fuel elements, ie fuel material (fissionable, fertile, compounding and alloying material), fuel cladding as well as associated support structures and absorber elements,
ie shut-down rods, control rods and shim rods as well as associated structural material,
do not form part of the internals of the reactor pressure vessel and hence are not insured.
