---

It is agreed and understood that otherwise subject to the terms, exclusions, provisions and conditions contained in the Policy or endorsed thereon and subject to the Insured having paid the agreed extra premium, this insurance shall be extended to cover the extra cost for decontaminating items which have become radioactive in the normal course of operation and which have been affected by an indemnifiable loss under the policy.

This cost of decontamination includes e.g.

- a. Expenditure incurred before it becomes possible to repair the damage proper, e.g. costs for decontaminating components exposed to ionizing radiation within the course of normal operation.
- b. Expenditure incurred in order to make the damaged item(s) accessible, e.g. for removing and replacing shields and protective walls;
- c. Expenditure incurred for the purpose of protecting the personnel repairing the damage, e.g. for protective clothing, work breaks, or limitation of the exposure to radiation, etc.;
- d. Additional expenditure incurred because the damaged item(s) cannot be repaired and must be replaced owing to contamination which arose during normal operation;
- e. Expenditure for such tests, checks and acceptance surveys as are obligatory after a loss has been repaired;
- f. Expenditure for removing and disposing of radioactive debris;

The total indemnity payable under this endorsement shall, however, not exceed the amount of ..... for any one accident.

The specified limit shall not apply, however, to the cost of conventional repair of the affected item(s) covered elsewhere under the Policy.
